

Access door handles are designed to handle up to 2" thick doors in sizes up to 48" x 48". Simple design and fully adjustable parts make them quick and easy to install. Handles are cast from a strong zinc alloy to give long service life that can handle harsh environments. Each handle set comes with steel and neoprene seals for airtight installations.

FEATURES AND BENEFITS

- Strong zinc alloy casting
- Will accommodate doors up to 2" thick and doors/frames up to 2" (1½" with collar)
- Steel and Neoprene washers (2 each) provide airtight performance and installation
