

# Container Recycling Program with CleanEarth™

Carlisle HVAC Brands is pleased to announce it is collaborating with Clean Earth to help reduce landfill waste generated from the commercial HVAC industry. Carlisle is dedicated to sustainability in all facets of its business, including product packaging. This partnership with Clean Earth will help customers save money while improving the long-term health of our planet.

- **ALL CYLINDERS MUST BE DEPRESSURIZED PRIOR TO SHIPMENT.** Cylinders that do not have the friable disk or knockout valve removed will not be accepted.
- Cylinders must be properly packaged for shipment to the disposal facility. (See page 2 for packaging guidelines.)
- Shipments must contain *at least* the required minimum quantity or a \$100 fee will be assessed. There is no maximum cap limit for the number of cylinders that can be shipped.

PACKAGING TYPE	MINIMUM QUANTITY	PACKAGING TYPE	MINIMUM QUANTITY
TRAVEL-TACK™	12 canisters (#40 cylinders only)	SPEED-TACK™	4 drums
Low-VOC (CA) TRAVEL-TACK	12 canisters (#40 cylinders only)	BOOTH-TACK™	4 drums
Super Tack TRAVEL-TACK	12 canisters (#40 cylinders only)	INSTA-TACK™	4 drums
Non-Flam TRAVEL-TACK	12 canisters (#40 cylinders only)	INSTA-TACK LV	4 drums
COIL-TACK™	4 drums	INSTA-GRIP™	4 drums
ROTO-TACK™	4 drums	Non-Flam Tack	4 drums

Clean Earth is one of the largest specialty waste companies in the United States, providing remediation, disposal, recycling, and beneficial reuse solutions for hazardous and non-hazardous waste. Its vast portfolio of technologies and services touches nearly every industry that generates waste, including energy, infrastructure, commercial, industrial, retail, and healthcare markets.

This cost-effective and eco-friendly program allows Carlisle HVAC Brand's customers to send empty TRAVEL-TACK, Low- VOC TRAVEL-TACK (CA-Compliant), Super Tack TRAVEL-TACK, Non-Flam TRAVEL-TACK cylinders and COIL-TACK, ROTO-TACK, SPEED-TACK, BOOTH-TACK, INSTA-TACK, INSTA-TACK LV, INSTA-GRIP, and Non-Flam Tack 50-gallon drums to a Clean Earth facility for recycling. Once the containers have been received by Clean Earth, they will properly break down all components and source the waste streams back out for use in other business sectors.

By opting into this program, users can save on landfill and dumpster expenses while helping to reduce the HVAC industry's environmental footprint.

## Cylinder Preparation

Please note that **ALL** cylinders must go through the following procedure to be accepted at a Clean Earth recycling facility.

**Use eye protection and impervious gloves.**

Once cylinders are empty and vented, carefully puncture the friable disc or knockout valve on the top of the cylinders.

Cylinders should then be packaged for shipment to the recycling facility. Cylinders are to be placed on a pallet and shrink wrapped or placed in a gaylord shipping box.

[Click here](#) for a link to gaylord options from Uline.

## Shipping Containers to Clean Earth

Once the shipment of cylinders or drums has been properly prepared, shipping arrangements will need to be made with an LTL carrier. Some national LTL carriers include:

- **Saia Motor Freight:** To schedule a pickup, call **1-800-765-7242** or visit <https://www.saia.com/pickup>
- **YRC Freight:** To schedule a pickup, call **1-800-610-6500** or visit <https://my.yrc.com/tools/pickup>
- **Estes Express Lines:** To schedule a pickup, call **1-866-378-3748** or visit <https://www.estes-express.com/myestes/pickup-request/>
- **Old Dominion Freight Line:** To schedule a pickup, call **1-800-235-5569** or visit <https://www.odfl.com/Pickup/pickup.faces>

*Please note that all packaging, shipping arrangements, and transportation costs are the sole responsibility of the sender, regardless of LTL carrier.*

When setting up a shipment with an LTL carrier, the following information will be required:

- The address for pickup of the containers.
- Weight of the shipment.
- Dimensions of shipment.
- Designation of shipment is Class 125.
- The address for delivery of the containers (select one of the Clean Earth locations listed below).

### CLEAN EARTH LOCATIONS

Address	City/State/Zip	Phone Number
1689 Shar-Cal Road	Calvert City, KY 42029	270-605-2105
1750 Morgantown Industrial Park	Morgantown, WV 26501	304-292-0659
402 Webster Chapel Road	Glencoe, AL 35905	800-739-9156
30677 Huntwood Avenue	Hayward, CA 94544	510-429-1129
1733 Morgan Road	Modesto, CA 95358	510-429-1129
4132 Pompano Road	Charlotte, NC 28216	704-395-9559

Once containers have been received by Clean Earth at one of their facilities, they will properly recycle the cylinders at no additional cost to the customer.
